

Technical specifications

# Scope Intermediate - 45°

The Scope Intermediate 45° is a cable guide designed for corners with a 45-degree angle. Its design enables the shuttle to easily navigate the 45° turn without disconnecting from the line.

### Use

Exclusively for use in combination with the Scope DP. Install with a safety nut on the Scope DP. Provides an uninterrupted and smooth passage of the shuttle.

### Materials

|                    |                            |
|--------------------|----------------------------|
| Intermediate:      | Stainless steel 316 – 3 mm |
| Surface treatment: | Electropolished            |
| Safety nut:        | Stainless steel 316        |

### Technical details

|                    |                             |
|--------------------|-----------------------------|
| Breaking strength: | 25 kN                       |
| Weight:            | 0.3 kg                      |
| Dimensions:        | Width 232 mm   Height 58 mm |
| Anchorage:         | M12                         |
| Marking:           | Serial number on safety nut |
| Packaging:         | Individually packaged       |
| Colour:            | Chrome                      |
| Ref.:              | VB97DI082                   |
