

Technical specifications

Scope Shuttle

The Scope Shuttle is designed to move smoothly along the line system and its intermediates. With the Scope Shuttle, the user can easily walk/work on the inside or outside of the cable. The shuttle is equipped with a dual locking mechanism for extra safety and reliability for the user.

Use

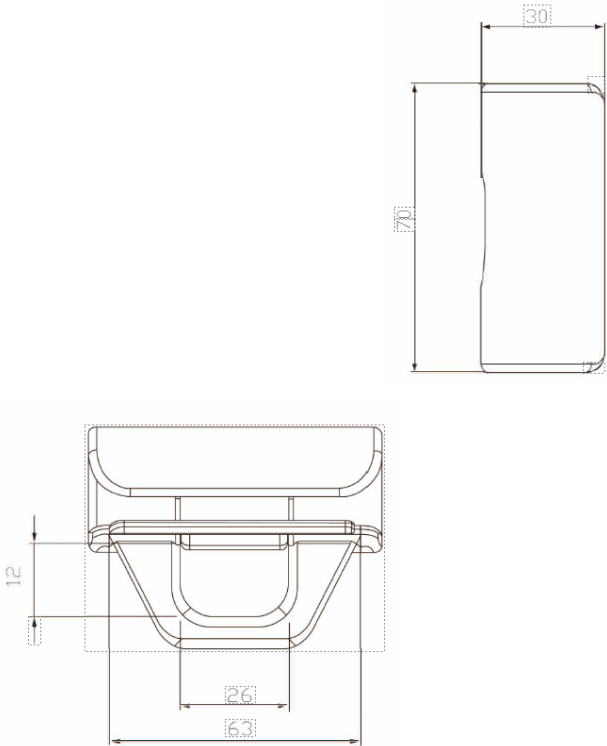

Suitable for any configuration of the Scope line system. Tailored for individual use. Use only according to the instructions in the user manual and with appropriate personal protection equipment (PPE).
