

Technical specifications

Scope Vertical shock absorber

The Scope vertical absorber is mounted on the top bracket to reduce the forces generated during a fall. The principle of energy absorption mainly occurs through deformation and friction. An integrated spring keeps the pre-tension constant in case of temperature variations.

Use

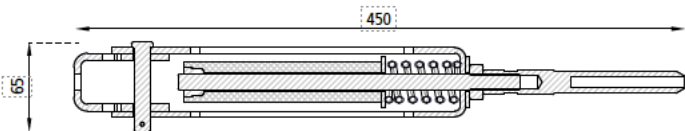

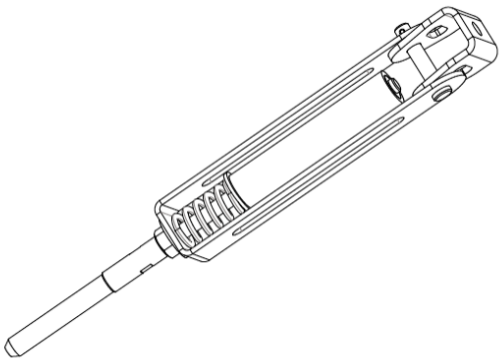

Suitable for use with the Scope vertical cable system and an 8 mm stainless steel cable.

Materials

Housing:	Stainless steel 316
Absorber:	Electropolished - PE
Spring:	Stainless steel
Surface treatment:	Electropolished

Technical details

Breaking strength:	>40.0 kN
Weight:	1,5 kg
Dimensions:	Width 65 mm Height 450 mm
Attachment:	U-bracket
Marking:	Serial number
Packaging:	Individually packaged
Colour:	Chrome
Ref.:	VB04VE001
